YEDİTEPE ÜNİVERSİTESİ

GOODNESS in YEDİTEPE, GOODNESS EVERYWHERE!
CONTAINER

Yeditepe University **KINDNESS CLUB "KINDNESS CONTAINERS"** project, which works with the slogan "**GOODNESS in YEDİTEPE, GOODNESS EVERYWHERE!**", is coming to life.

Two "**KINDNESS CONTAINERS**" for Clothes, Shoes, and Textile are located in our university; one in the main square area and the other next to the Faculty of Fine Arts Building. We kindly request that the donated products are clean and usable since they will be delivered to those in need.

We invite all our students, academic and administrative staff to spread goodness.

Zero Waste Certification (Yeditepe University, Turkey)

Description:

All recyclable wastes throughout the university are collected separately to be recycled. To carry out this process properly, indoor waste separation units in all corridors of classes, offices and halls have been placed to be collected and separated in their source. Besides, the used papers generated at the offices are recycled with a mechanical technique by an authorized recycling company and GHG emission resulting from the incineration has been avoided indirectly.

Environmental protection campaigns have been conducted to raise environmental awareness among academic and administrative staff as well as the students. Examples of the campaigns can be given as waste battery collection, fluorescent light collection, plastic cover collection, safe disposal of expired drugs and collection of waste oil. The university is supported by the municipality with the joint projects carried out for recycling.

Two "KINDNESS CONTAINERS" for Clothes, Shoes, and Textile are located in our university; one in the main square area and the other next to the Faculty of Fine Arts Building. Usable hats, sweaters, shirts, t-shirts, dresses, scarves, trousers, shoes, slippers, boots, blankets, tablecloths, curtains, bags, towels, etc. textile or clothing products can be left in this container. The products left in the containers are delivered to the relevant distribution centers at regular intervals to be delivered to those in need. In these centers, usable products are packaged and delivered to people and families in need.

Yeditepe University has established the "Zero Waste Management System" throughout the campus area and fulfilled the requirements of the "Zero Waste Certification" given by the Municipality of Environment and Urbanization at February 2021.
